

TORINO FILM FESTIVAL - 28th EDITION
(26 november - 4 december 2010)

SONS AND LOVERS

Dario Argento, Saverio Costanzo, Daniele Luchetti, Carlo Mazzacurati and Carlo Verdone: these are the five directors who will be the stars of the section SONS AND LOVERS at the 28th Torino Film Festival.

This section, which was strongly championed by the director Gianni Amelio, will once again bring to Torino five well-known Italian film directors, representing different generations, trends and expressive and thematic lines. Each director will choose a film from the past which “sparked” their passion for cinema, which inspired them and influenced their films in a special way.

After the projection of the chosen film, the directors will share with the audience the meaning of this discovery and their ties to the film and its director. At each encounter, a different film critic, film expert or film historian will be present onstage with the director and, through their questions, will try to reveal the “heart” of this passion.
